At TSG Group, giving back is at the heart of everything we do. Through our CSR initiatives, we're dedicated to empowering communities across the Andaman and Nicobar Islands. From beach cleanups and plantation drives to distributing food in hospitals and providing mid-day meals in schools, our efforts reflect our unwavering commitment to the core values of love and humanity.

CSR Activities

The drinking water used in our hotels and resorts comes from our in-house RO plants, ensuring purity while minimizing environmental impact. By eliminating plastic bottles, we significantly reduce waste, and since our zero-kilometer water doesn't require transportation, we cut down on carbon emissions, making our operations more sustainable.

Sustainable Hydration

We have Sewage Treatment Plants installed across our properties, ensuring responsible water management. These plants purify wastewater to a level safe for reuse in activities like gardening, reducing water wastage and promoting sustainability in our operations.

**Recycling Water for
a Greener Tomorrow**

We're proud to be harnessing the power of the sun in Port Blair and at Havelock Island! Our 66 kW solar power plant generates more than half of our electricity needs, making TSG Blue and TSG Emerald View true leaders in sustainable hospitality. By reducing reliance on external sources, we ensure a greener stay for our guests while protecting the natural beauty of the Andamans.

Powering with the Sun

We believe in sustainable hospitality, and our organic farms in Port Blair and Neil Island are a testament to that commitment. Guests can embark on a farm tour, handpick fresh, organically grown vegetables, and have our chefs craft a delicious meal using their selection. This initiative not only ensures healthier, farm-fresh dining but also supports local farming communities, reduces our carbon footprint, and fosters eco-conscious tourism.

Farm-to-table experience

Dedicated to uplifting underprivileged communities in the Andaman and Nicobar Islands, the foundation actively works to eliminate poverty and address critical social issues. Its initiatives focus on women and child development, health and nutrition, environmental conservation, education, and the protection of vulnerable groups. Additionally, the foundation provides support for individuals with disabilities, patient care for medical treatment on the mainland, and disaster relief and rehabilitation efforts across the Union Territory.
